In the context of permanent self-assessment of the program intensified from the end of 2019, it was opted for the alteration of the original denomination, citizenship, law and justion which was relatively broad, to the present, citizenship, law and justion of the focus of the project. Law, Education and Social Justice The right project, social education and social justion has its antecedents in the project originally called the ours Identity policies and their dimensions in the pedagogical projects and in the Currentials, which, reformulated in the context of permanent self -evaluation of the intensified program from the intensified program End of 2019, which even consolidated the present denomination in replacement in the previous one, in the function of the profile of the projects ET ENSE ASSEZA Law and social justion: instruments of protection and effectiveness of the human and environmental health, the proposal aims to deal with human and environmental health analyzing the risk factors arising from the progressive degradation of ecosystems. This investigative path is constructed from a dialect for human and fundamental rights that stars in solidarity and reselling, emancipating and giving voice To vulnerabized social groups, among them women, LGBTQia+people, black people, indigenous, quilombola and traditional peoples, migrants and refugees (OS). The investigations inserted here so as the foundation of human dignity and are based on freedom, equality, acceptance of the difference and in the no. -Discriminate, as well as in the basic prinion of the democratic state of compatible law with the jurist pluralism, the secularism and the values required in terms Defense and promotion of the social justion. Its origin is, in addition to the project, in the context of the permanent self-assessment of the intensified program from the end of 2019, which considered it convenient and appropriate to guarantee a space Specific institutional for the consolidation of the scientific production associated with the referred center, culminating in the current denomination of present research projects, which, rescuing the main research focuses of the CRDH, also allows space to associate other related production to the fear, keeping, guarding, However, CRDH vain, especially in the context of projects with research research techniques, where both efforts are necessarily associated. Thus, under the pursuit of social justice, the transdisciplinary will seek to integrate different fields of knowledge, including the vicinity of the Jurhan From its basis Until distinct normative sets related to social and environmental-economic issues and the retirement of public law, based on the centrality of citizenship; always seeking interaction with other dimensions of knowledge, transcendants of the juridical field, among which ecology; Geography, history, anthropology; the afa Ítica; The education, as well as related to innovance technological aliers. Research Line II: Am Sustainability Poly Poils This line of research faces linked themes in the policies in their final dimensions of constitutionality, affirms £ o and expansion of citizenship, recognition of diversity and transformation of reality. To this end, the project seeks to problematize the educational policies since the dwarfs of their legal texts, as well as the national curriculum guidelines and paranistics, teaching teaching practices and the pedagogical political projects, in order to understand the right to education as a fundamental human right, as well as the mechanisms that can guarantee the social justice in the space Educational, whether at school or at the university. This project has the financing of the National Agency of Promocation of La Investigation, El Desarrollo Technological (Argentina) and the Superior Consejo of Scientific Investigations (Spain). Answering, a comparative studio of Las Decisions del System of human derees on this fear. This project houses different universities under the general coordination by Professor Julio Cezar Llanafa Noqueira of the Faculty of Derecho of the National Universidad Rosario (Unr/Argentina) and Assistant Coordination, including Professor Blanca Rodrã? Madrid (Uam/Spain) ³noma and, in Brazil, by Professor Sheila Stolz (PPGDJS/FURG). Interdisciplinary approach is based on a constitutionally oriented, socially sensitive and solidary look, which comprises two dimensions considered jointly: on the one hand, the concrete reality and its social and eco -man inequalities and, from On the other hand, the constitutional compliance of judicial practices, both with regard to protection and realization of rights and reducing rights Of potential damages resulting from state intervention. The project has as its guiding the cronist engagement with the flows of circulation and production of meaning of the criminal question, with the intensity to intervene in concrete reality and inform the judicial space and the policies with theoretically based research, empirically substantiated and constitutionally oriented, according to the social justice of social justion. Its interdisciplinary dwarfs contemplate both the acting of the public power and its reflexes in society and propose initiatives involving human rights, social inclusion, diversity is Racial, as well as sustainable and orientable environmental, educational and criminal policies, such as predoaa? Environmental, massive incarceration and combat in persistent econanic inequalities, aiming at the consolidation of the social justice.
